

# PROFESSIONAL SERIES TRAPS

## Rigid Traps with One Trap Door

Tomahawk Professional Live Traps are the strongest, most durable, and effective traps available. These traps surpass even our legendary "Original Series" traps when it comes to toughness and durability.

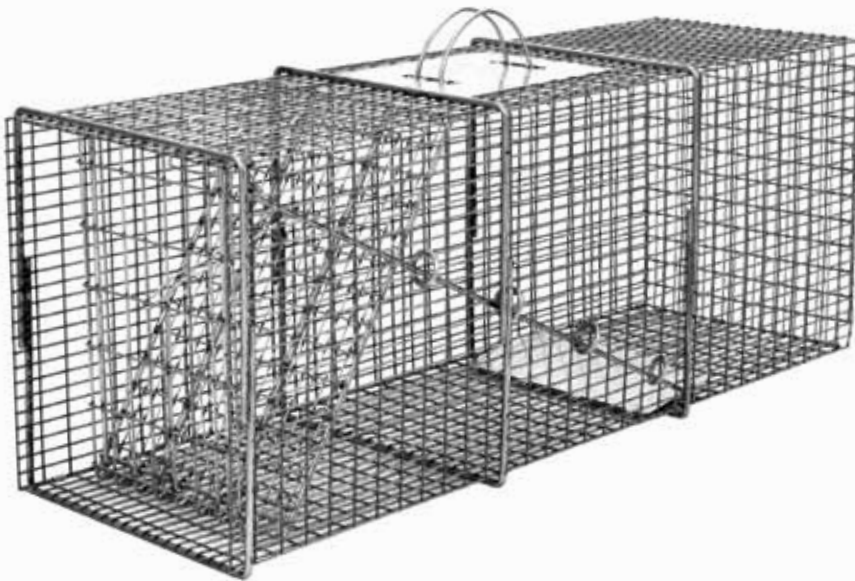

They feature a very strong frame with tighter mesh and heavier gauge wire. We've also added extra reinforcement rods for even greater strength.

Tighter mesh openings prevent animals from reaching through from the outside to steal bait. They also prevent trapped animals from reaching outside to damage surroundings.

Simply put, these are the best of the best and are built to withstand years of daily use. They are manufactured in the USA at our facility in Wisconsin. Each trap is inspected and tested before it is shipped to you, our valued customer.

### Additional features include:

- Strongest steel wire frame of any box trap available on the market.
- Extra reinforcement steel rods welded to the frame for even greater strength.
- Tightest mesh patterns of any of our trap series.
- Same great design as our Original Series traps with even stronger materials and more demanding quality specifications.

### PRODUCT HIGHLIGHTS

**Very affordable** - These traps have a single trap door and do not have a back door. This means animals must be released through the same door from which they entered the trap. The single trap door design makes this category more affordable than other categories.

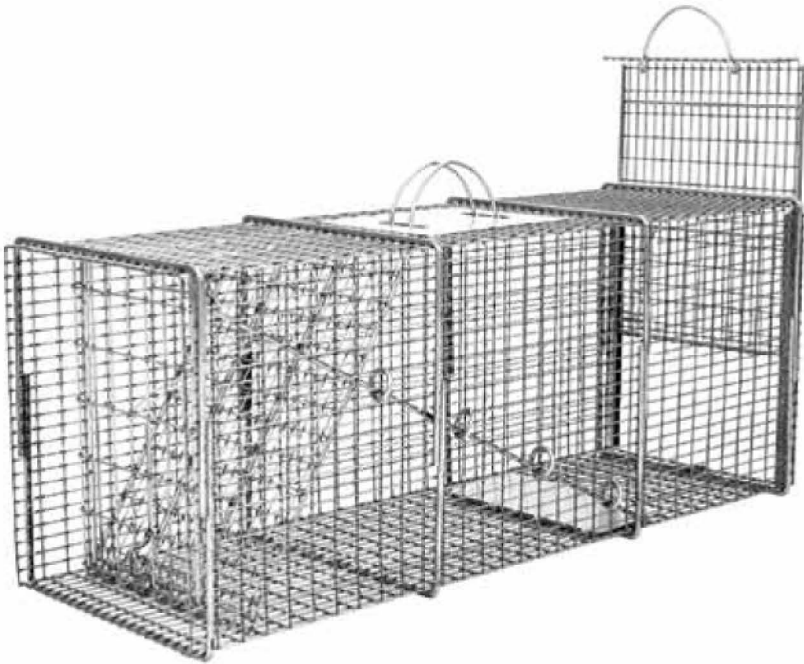

### Rigid Traps with One Trap Door

Model	L - W - H	Description	Construction	Wt	1 to 5	6+
102SS	16 x 5 x 5	Chipmunks, Gophers, Rats, and Similar Size Animals	½ x ½ - 16 gauge	2 lbs	\$33.93	\$29.21

# PROFESSIONAL SERIES TRAPS

## Rigid Traps with One Trap Door and Easy Release Door

### PRODUCT HIGHLIGHTS

**Easy animal release** - The easy release door provides for the safest and easiest way to release trapped animals.

**Easy trap baiting** - Baiting is much easier when done from the back of the trap with the easy release door removed. You no longer have to reach through the front of the trap and risk setting it off.

**Simple to operate** - Unsnap the latch which holds the easy release door in place, and remove it by lifting up on the attached handle.
